

Someone like You

E C#m A
I'm looking for a face I can see & a hand I can hold

F#m
I'm looking for someone to walk beside me on this road
E C#m

I'm looking for a name I can trust in
A F#m
And not be ashamed, and not be afraid again

E B
Someone like you, someone like you
F#m A
It would be so much easier if only you were here

E C#m A
Now I know what you said, it's what I believe
F#m

I know that you live inside of me
E C#m A
But that's on the inside, it's not what I see
F#m

I guess I'm still reaching on out to

E B
Right here ... where my nose meets the air
C#m A

Right here ... where I'm standing at
E B

Right here ... where my tears hit my cheek
C#m A F#m

Right here ... underneath this hat, underneath this mask
E B

Right here ... where the rubber meets the road
C#m A E - B - F#m - A

Right here ... beneath this sky blue ...
